SALIENT FEATURES OF AQUAFRESH WATER STORAGE TANK'S :-

MORE HYGENIC :-

FOOD GRADE POLYMER manufactured by RELIANCE INDUSTRIES, ONGC, GAIL, IOCL ensure that the water dose not get contaminated when in contact with the manufactured tank.

STRONGER :-

Well desgined ribs have been given to each model and every size to develop better strength in the tank.It reduces chances of tank bursting and also gives better grip in totality when tank is full with water.

TESTED :-

We M/s. AADESHWAR POLYMERS believe in long term durability of each and every product manufactured and also test every batch produced at our workshop. And hence we say that jus FIT & FORGET our products as per your needs and do enjoy the quality of the right product you choosed.

VIDE RANGE :-

AQUAFRESH TANKS has vide range of different sizes which meets your compact, narrow & wide spaces, and will definetly not annoy your requirement.
